Special terms

Section 2 – Declaration of data and physical security

There is significant risk of inadvertently disclosing or offering sensitive and confidential information or intellectual property to unauthorised persons through the disposal of computer equipment, mobile phones, photocopiers, or similar memory-capable equipment. This risk also applies to hard copy data including files, correspondence, notes, marketing materials, government logos, diaries, etc.

It is the responsibility of agencies to ensure that removal of stored data has been completed before forwarding equipment for disposal to authorised government auctioneers.

Declaration for disposal of computer/media equipment

I declare that all electronic data, sensitive or confidential information and/or intellectual property has been removed or erased from the computer/media storage/multi-function display/telecommunications/memory-capable devices as per the attached listing which has been forwarded to the auctioneer for disposal.

Name: Matt Davidson Position title: District Officer
