

**QUEENSLAND
MINERAL RESOURCES ACT 1989
Section 186**

MINERAL DEVELOPMENT LICENCE No. 303

I, THE HONOURABLE TONY MCGRADY, MINISTER FOR MINES AND ENERGY AND MINISTER ASSISTING THE DEPUTY PREMIER ON REGIONAL DEVELOPMENT for the State of Queensland (hereinafter with my successor in office referred to as "the Minister") pursuant to the power and authority in me vested under the Mineral Resources Act 1989 (hereinafter referred to as "the Act") hereby grant this Mineral Development Licence subject to the provisions of the Act, the terms and conditions indicated hereunder, the Schedule of Special Conditions endorsed on this Instrument of Mineral Development Licence and subject to the Schedule of General Exclusions and Conditions for Mineral Development Licences (Version 6 - October 1997).

- 1. Holder(s) **BOWEN BASIN COAL PTY LTD**
- 2. Address for services of notices **C/- QUEENSLAND COAL MINE
MANAGEMENT PTY LTD
GPO BOX 374
BRISBANE QLD 4001**
- 3. Area (hectares) **15516**
- 4. Locality **16 km North-east of Dysart**
- 5. Mineral Sought **Coal**
- 6. Term **Two Years**
- 7. Date Commenced **First day of September, 2000**
- 8. Date of Expiry **Thirty-first day of August, 2002**
- 9. Conditions **Subject to the conditions prescribed under Section 194 of
the Mineral Resources Act 1989**
- 10. Rental: First rental period **sch4p4(7) (**
Full year's rental **The amount of the rental shall be the amount prescribed
in respect of the year which the rental period falls**
- 11. Description of land in respect of which this Licence is granted (including access) **SEE ATTACHMENT 2**

Granted at Brisbane this Thirty-First day of August, 2000 after consideration of the standard criteria set out under the Environmental Protection Act, 1994

Application to amend an environmental authority (mining activities) for a
level 1 mining project

OFFICIAL USE ONLY

DATE RECEIVED:

--	--	--

FILE REF:

PROJECT REF:

COMPLETE FORM

CORRECT AA

COMPLETE FEE

ADMINISTERING REGION:

ENTERED BY [SIGNATURE]:

DATE:

--	--	--

This form is to be used when applying for an amendment of an environmental authority for a level 1 mining project under s. 240 of the *Environmental Protection Act 1994*.

The holder of an environmental authority (mining activities) may use this form to:

- add a new mining tenement to an existing environmental authority;
- increase the surface area of a tenement;
- include additional activities or change the scale or type of activities;
- request an amendment to the conditions of an existing environmental authority;
- request an amendment to an environmental authority to reflect a change in the relevant standard environmental conditions;
- remove one or more existing holders of an environmental authority;
- as part of an application for the transfer of environmental authority, the proposed transferee is seeking an amendment to the authority;
- to nominate a principal holder.

(The principal holder under the *Environmental Protection Act 1984* should also be the principal holder under the *Mineral Resources Act 1989*.)

Do not use this form:

- to correct a clerical or formal error. The administering authority can make the correction as long as the proposed amendment does not adversely affect the interests of the environmental authority holder, or anyone else.

To amend a financial assurance, if there are no other amendments to your environmental authority, use the form Application for Amendment or Discharge of Financial Assurance for an Environmental Authority (Mining Activities) (EM2104¹).

If you are applying for a new mining tenement to be added to an existing environmental authority, or requesting additional surface area for an existing environmental authority, please submit this form, together with the required fee, to the Mining Registrar.

For all other applications, please submit the completed form, together with the required fee, to the administering authority.

¹ This is the publication number, which can be used as a search term to find the latest version of the publication at <www.derm.qld.gov.au>.

Application to amend an environmental authority (mining activities) for a level 1
mining project

Question 1 – Applicants

The applicants for, and/or holders of a relevant mining tenement for a mining project must also be the applicants for and/or holders of the associated environmental authority (EA).

Joint holders may appoint one of the applicants as the principal applicant (for submitting and receiving notices etc) by completing Attachment A.

Question 2

Ensure that Attachment A is completed.

Question 3 – Contact person

Where the holder or principal holder is a company, identify a responsible person to act as signatory of this application.

Specific information requirements

1. Environmental authority (EA) holder name(s)

NAME & ABN/ACN:

Bowen Basin Coal Pty Ltd

ABN: 22065321440

NAME & ABN/ACN:

NAME & ABN/ACN:

2. Principal holder name (where applicable)

NAME & ABN/ACN:

3. Contact person for this application

NAME:

Dan Cawte

POSITION:

General Manager of Development for the Jellinbah Group

REGISTERED BUSINESS ADDRESS:

Level 7, 12 Creek Street

Brisbane QLD 4000

FULL POSTAL ADDRESS:

PHONE:

(07) 3877 6700

FAX:

MOBILE PHONE:

EMAIL:

dcawte@jellinbah.com.au

Application to amend an environmental authority (mining activities) for a level 1
mining project**Question 4**

EA details may be found on the existing authority, relevant tenement approval or quoted in other correspondence received from the administering authority.

If you cannot locate the authority number, please contact the administering authority.

Where the Mining Registrar has previously issued a project number, provide that number.

Question 5 – Removing holders

This application form cannot be used to include a person as a new holder of the authority. Use the form titled Application to Transfer an Environmental Authority (Mining Activities) (EM568).

If the person to be removed is the holder of a relevant mining tenement, it is likely that the administering authority may require that person to remain a holder of the authority.

The holders of the EA must be the same people as are holders of the associated tenements.

Question 6

The maps for identifying strategic cropping land (SCL) and potential SCL can be found on the DERM website at www.derm.qld.gov.au/ecoaccess/maps_of_environmentally_sensitive_areas.php.

Environmental authority to be amended**4. EA details**

PROJECT NUMBER (WHERE ISSUED):

NA

PROJECT NAME:

Lake Vermont Coal Project

ENVIRONMENTAL AUTHORITY NUMBER

MIN100736808

TENEMENT TYPE AND NUMBER (E.G. ML1234):

ML70331

5. Do you wish to remove one or more existing holders from the EA?

- Yes → List the existing holders of the EA to be removed from the authority

HOLDER(S) NAME:

If this is the only purpose of the amendment application, no further information is required → go to Question 18

- No → Go to Question 6

6. Are any of the current or proposed mining tenements over land that is designated as strategic cropping land (SCL) or potential SCL as shown on a SCL trigger map?

- Yes → Go to Question 7
 No → Go to Question 8

Application to amend an environmental authority (mining activities) for a level 1
mining project

Question 7

An application for an SCL compliance certificate provides a streamlined assessment pathway for resource activities that pose a low risk to adversely impacting on SCL or potential SCL. You must be able to comply with the SCL standard conditions code for resource activities to apply for an SCL compliance certificate.

If you cannot comply with SCL standard conditions code for resource activities, you must apply for an SCL protection decision.

The SCL application forms and SCL standard conditions code for resource activities are available on the DERM website.

An environmental authority can not be issued unless an SCL compliance certificate has been given or an SCL protection decision has been made.

Question 8

The amendment is not limited to the existing conditions of the EA. Holders may apply to have additional conditions included in the EA.

7. How will, or have, you considered *Strategic Cropping Land Act 2011* requirements?

- Considered under the SCL standard conditions code for resource activities.
 - I/We have already applied for a compliance certificate:
Ref No.
 - I/We will be applying for a compliance certificate.
- Considered under a SCL protection decision
 - I/We have already applied for a protection decision:
Ref No.
 - I/We will be applying for a protection decision.

8. What is the purpose for seeking an amendment to the environmental authority?

- To include additional activities or a change in the scale or type of activities → Go to Question 9
- To amend conditions of an existing authority → Go to Question 10
- As part of an application for the transfer of an EA where the proposed transferee is seeking an amendment of the EA → Go to Question 17
- To increase surface area of the tenement, or to add a new mining tenement to the existing EA (provide details in the below sections).

TENEMENT TYPE AND NUMBER (E.G. MLA1234):

See Attachment A

- Other.

PLEASE SPECIFY:

Application to amend an environmental authority (mining activities) for a level 1
mining project

Question 9 – Activities

Please include information on any additional tenements, an increase in surface area, an increase in rate of production or disturbance, or the building of additional infrastructure.

The application may be refused on the grounds that it would be more appropriate for the applicant to seek the amendment by replacement of the EA.

Question 10 – Conditions

Holders may apply to have additional conditions included in the EA. However, the administering authority may grant the application only if it considers the amendment necessary or desirable.

Question 11

A condition of an EA requiring a financial assurance cannot be amended or discharged using this form, or under the amendment provisions of chapter 5, part 8 of the EP Act.

9. Do you intend to carry out additional activities and/or change the scale or type of activities that make up the project?

Yes → Please provide details below

PLEASE SPECIFY:

See Attachment A

LIST ADDITIONAL TENEMENT(S):

See Attachment A

PLEASE ATTACH DETAILED INFORMATION OUTLINING THE CHANGES TO THE ACTIVITIES THAT MAKE UP THE PROJECT

Tick to indicate attachments:

No → Go to Question 10

10. Do you wish to amend one or more conditions of your EA?

Yes → Go to Question 11

No → Go to Question 14

11. Identify the EA condition(s) to be amended

CONDITION NUMBER(S):

See Attachment B

IF YOU REQUIRE ADDITIONAL SPACE, PLEASE ATTACH A SEPARATE SHEET

Tick to indicate attachments:

Application to amend an environmental authority (mining activities) for a level 1 mining project

Question 12

If you require additional space, please attach a separate sheet

12. Explain why the conditions listed in Question 11 cannot be met

EXPLANATION:
Additional regulated dams and additional disturbance footprint proposed.

Tick to indicate attachments:

Question 13

Please provide supporting information to ensure the activities do not cause material or serious environmental harm.

If you require additional space, please attach a separate sheet

13. Propose replacement condition(s)

NEW CONDITION(S):
See Attachment B

Tick to indicate attachments:

Question 14 – Financial assurance

As a result of the amendment process, the holder of the EA must provide financial assurance as required by the Codes of environmental compliance.

For further details, see the guideline Calculating Financial Assurance for Mining Projects (EM585) and the relevant code of environmental compliance. Electronic copies are available at <www.derm.qld.gov.au>

Financial assurance is calculated as follows:

- (i) for mining leases, from a schedule of disturbance and rehabilitation in the plan of operations
- (ii) for exploration permits and mineral development licences, by reference to the schedule of rehabilitation costs in the Code of Environmental Compliance for Exploration and Mineral Development Projects
- (iii) total financial assurance for the mining project is obtained by adding the financial assurances in (i) and (ii) above.

14. Indicate the amount of financial assurance to be held for the amended EA for the mining project:

Total amount of financial assurance proposed to be held:

\$ TBD in the PoO

Tick to indicate attachment:

The proposed amount of financial assurance will be reviewed by the administering authority and may be altered at the discretion of the administering authority if it is not consistent with the area of disturbance and rehabilitation requirements.

Application to amend an environmental authority (mining activities) for a level 1
mining project

Questions 15 - 17

Include the GST component when stating the amount proposed to be held/lodged, and the amounts currently held where relevant (adding the GST component if it has not been previously submitted).

15. In the table below, insert the appropriate amounts and form of financial assurance in relation to the EP Act.

	Amount of financial assurance	Form of financial assurance ³
Amount proposed to be held in Question 14	\$ TBD	TBD
Amount currently held ¹	\$ TBD	TBD
Difference between the amount proposed and the amount currently held ²	\$ TBD	TBD

¹ Insert the amount and form of financial assurance that is currently held by the administering authority under the EP Act (i.e. not including tenement security required by the Mining Registrar under the *Mineral Resources Act 1989*).

² A negative amount is the amount of financial assurance to be returned by the administering authority (Question 17 applies). A positive amount is the additional financial assurance (including GST) to be submitted to the administering authority (Question 16 applies).

³ The administering authority will require financial assurance either as cash or as an unconditional guarantee from a suitable financial institution.

16. Where a financial assurance is to be amended and lodged with this application, please identify the person(s), company/companies or institution providing the financial assurance on behalf of the (proposed) authority holder(s), nominate the amount and the manner in which the financial assurance is being provided.

NAME(S) & ABN/ACN: TBD	AMOUNT \$:	MANNER HELD: <input type="checkbox"/> cash <input type="checkbox"/> financial institution unconditional guarantee
---------------------------	------------	--

Questions 17

Where a financial assurance is to be returned to a company or financial institution, provide the Australian Business Number (ABN) or the Australian Company Number (ACN) for that company/institution.

17. Where a financial assurance is to be discharged and returned to a person(s), company/companies or financial institution, please identify the person, company or institution, nominate the amount to be returned and the manner in which the financial assurance is currently held.

NAME(S) & ABN/ACN: NA	AMOUNT \$:	MANNER HELD: <input type="checkbox"/> cash <input type="checkbox"/> financial institution unconditional guarantee
--------------------------	------------	--

Application to amend an environmental authority (mining activities) for a level 1
mining project

Question 18

Please read carefully through the certification opposite and tick all of the boxes if appropriate, before signing.

Privacy statement

The Department of Environment and Resource Management is committed to protecting the privacy, accuracy and security of your personal information in accordance with the *Information Privacy Act 2009*. Your personal information will be accessed only by authorised personnel for the purposes of processing this application to amend an environmental authority, as authorised under s. 240 of the *Environmental Protection Act 1994*. To enable the processing of this application, information may be shared with the Department of Employment, Economic Development and Innovation. Your personal information will not be disclosed to any other third parties without your consent or unless authorised or required by law. All information supplied on or with this form may be made available to others upon request, subject to provisions of the *Right to Information Act 2009* and *Evidence Act 1977*. For queries about privacy matters email: AdminReview@derm.qld.gov.au or telephone: (07) 3896 3705.

18. Applicant certification

- I/we, being the person(s)/entity identified at Question 1, hereby apply to amend the EA stated at Question 4 as detailed in this application.
- I/we solemnly and sincerely declare that the information provided is true and correct to the best of my/our knowledge and I/we make this solemn declaration conscientiously believing the same to be true.
- I/we understand that all information supplied on or with this application form may be made available upon request, subject to the provisions of the *Right to Information Act 2009* and/or administrative access arrangements of the administering authority.
- I/we understand that suitability inquiries may be made of any applicant.
- I/we enclose the required amendment application fee² of \$ 276
- I/we am/are authorised to sign on behalf of the applicant(s), and commit this person/entity in all matters relevant to this application.
- I/we am/are aware that under s. 480 of the *Environmental Protection Act 1994*, it is an offence to give the administering authority information that I/we know is false, misleading or incomplete in any material particular.
- I/we understand that an incomplete application (including applications that do not include the fee) may be invalid. Invalid applications will be returned without processing and will only be processed if resubmitted with all invalidating issues addressed.

If Tenant in Common, specify share or interest -	Percentage	1.4	0.00 %

Company Name/Surname	1.1	
Given Name(s)	1.2	

GUIDE FOR APPLICANTS

Before making an application you are required to mark out the land proposed for the mining lease. For the manner of marking out, refer to sections 240 and 241 of the *Mineral Resources Act 1989*.

Question 1.1

Specify company name or surname of applicant(s).

Question 1.2

Specify given name(s) of applicant(s).

Question 1.3

If a company, what is the Australian Company Number (ACN)?

GUIDE FOR APPLICANTS

Question 1.4

Specify the percentage of interest to be held by each applicant.

Question 1.5

The total interest must equal 100%. If you are entering these details online, right click the '0' and select 'Update Field'.

Question 1.6

If there are 2 or more applicants, indicate if the interests will be held as Tenants in Common or as Joint Tenants. If interests are not specified, tenancy will be registered as Tenants in Common.

NOTE: Joint Tenants must be of equal interest held.

Question 1.7

One applicant must be shown as the nominated person, upon whom any notice may be served on behalf of the applicant(s). (Commonly referred to as the 'Principal Holder')

Question 1.8

Specify the address of the nominated applicant.

Question 1.9

Specify the phone number of the nominated applicant.

Question 1.10

Specify the fax number of the nominated applicant.

Question 1.11

Specify the email address of the nominated applicant.

Question 2

A mining lease can be applied for if the applicant (or one of the applicants) is the holder of a current pre-requisite tenure.

Question 2.1-2.5

Tick which is the pre-requisite tenure for the mining lease application either a prospecting permit, exploration permit for mineral or coal, mineral development licence or a mining claim or mining lease (being conditionally surrendered) and provide the number and expiry date of the tenure.

A conditional surrender may be for the whole or part of the area in favour of either whole or part of a new application.

Question 2.6

Identify whether the land is situated within an exploration permit, geothermal exploration permit or mineral development licence (either granted or an application) that is not held by you.

If so, you must obtain the earlier applicant's or holders written views on your application and lodge those views with the Mining Registrar. (Refer to sections 248 and 249 of the *Mineral Resources Act 1989*).

2. PRE-REQUISITE TENURE DETAILS

What pre-requisite tenure do you hold over this area?

Question	Description	Tick		Number(s)	Expiry Date(s)
		Mineral	Coal		
2.1	Prospecting Permit	<input type="checkbox"/>			/ /
2.2	Exploration Permit(s)	<input type="checkbox"/>	<input type="checkbox"/>		/ /
2.3	Mineral Development Licence(s)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	303	31 / 08 / 2012
2.4	Conditionally surrendered Mining Claim	<input type="checkbox"/>			/ /
2.5	Conditionally surrendered Mining Lease	<input type="checkbox"/>			/ /

Is the land applied for situated within an area of an Exploration Permit for Mineral or Coal, a Geothermal tenure or a Mineral Development Licence, which you are not the holder?

2.6	<input type="checkbox"/> YES (go to Q 2.7)	<input checked="" type="checkbox"/> NO (go to Q 3.1)
-----	--	--

Question	Description	Tick		Number(s)	Expiry Date(s)
		Mineral	Coal		
2.7	Exploration Permit(s)	<input type="checkbox"/>	<input type="checkbox"/>		/ /
2.8	Mineral Development Licence(s)	<input type="checkbox"/>	<input type="checkbox"/>		/ /
2.9	Geothermal Exploration Permit	<input type="checkbox"/>			/ /

GUIDE FOR APPLICANTS

Question 2.7 to 2.9

If yes, provide number and expiry date of relevant tenure not held by you.

Question 3

Before you apply for a mining lease you must mark out the boundary of the land, even if the surface of the land is not going to be included in your application.

Once marked out you have five business days in which to lodge your application.

Question 3.1-3.2

Specify the date and time the land the subject of the mining lease was marked out.

Question 3.3

There is no restriction on the term of a mining lease. However, when you apply for a lease you must justify the term you are seeking. A mining lease cannot be for a term longer than the period for which compensation has been agreed or decided. For example, if you agree to compensation for a five-year period then the lease cannot exceed five years.

Question 3.4

Provide detailed reasons for the length of term sought.

Question 3.5 & 3.6

State the area of land being applied for. There are no restrictions on the area and shape of the land, which can be granted under a mining lease (other than those imposed under certain Restricted Areas). However, you must justify the area and shape when you make your application.

Question 3.7

State the general locality of the application, e.g. 15km SE of Mount Isa.

Question 3.8

Insert the name of the Mining Lease.

Question 3.9

Insert the details of the Local Government. This refers to either the City or Shire Council responsible for the local government area(s) in which the land is situated.

Question 3.10

Specify which minerals are sought and/or the purpose for the mining lease. Do not use symbols. Do not include minerals that are not specified in the pre-requisite tenure.

Please Note: the Government's policy is that it will not grant mining tenements for the purpose of mining uranium in Queensland, nor will it permit the treatment or processing of uranium within the State.

3. APPLICATION DETAILS

What was the date and time the land was marked out?

3.1	DATE: 13/08/2012	3.2	TIME: 10:00	<input checked="" type="checkbox"/> AM <input type="checkbox"/> PM
-----	------------------	-----	-------------	---

Term applied for:

3.3

30 years

Provide detailed reasons the term applied for.

3.4 The mining lease if granted will allow the continued production of coal from the Lake Vermont Coal Mine. It is likely that the opencut coal resource on ML 70331 and future extensions will be depleted at about the time this mining lease would expire if granted for 30 years.

Size of area applied for

3.5

452.6

ha

Provide detailed reasons for the area and shape of the land applied for.

3.6 The application area will be used for infrastructure facilities and services for the contiguous Lake Vermont Mine on ML 70331. The facilities will include codisposal areas for waste coal materials, topsoil stockpiles and spoil dumps.

What is the general locality of this application?

3.7 Approximately sixteen (16) kilometres north-east of Dysart township.

What is the name of the Mining Lease? (if any)

3.8 Lake Vermont West

What is the local government area(s) in which the land applied for is situated?

3.9 Isaac Regional Council

Specify the minerals and/or purpose for which this mining lease is sought?

3.10 Coal Mining - Refer to section 2.4 "Supporting Information"

Is the application solely for infrastructure facilities associated with mining? (e.g. Workshops, administration buildings)

3.11 YES NO

GUIDE FOR APPLICANTS

NOTE: Coal mining leases are subject to additional provisions imposed under Part 7AA of the *Mineral Resources Act 1989*.

Question 3.11

Mining leases may be granted for purposes other than mining of minerals (i.e. for the purposes of carrying out activities associated with mining such as plant site, camp or tailings dam).

Question 4

The *Mineral Resources Act 1989* prescribes certain types of land as "restricted land". This land is only available if the owner of the land where the relevant permanent building (Category A), or feature (Category B) is situated, consents in writing to your application. If consents are not lodged, such areas will automatically be excluded from the surface area of your mining lease.

Restricted Land (category A)

Means land within 100m laterally of a permanent building used –

- (a) mainly as accommodation or for business purposes; or
- (b) for community, sporting or recreational purposes or as a place of worship.

Restricted Land (category B)

Means land within 50m laterally of any of the following features–

- (a) a principal stockyard;
- (b) a bore or artesian well;
- (c) a dam;
- (d) another artificial water storage connected to a water supply; or
- (e) a cemetery or burial place.

Question 4.2

Specify the improvements to the land which is being applied in the mining lease. The types of improvements and prescribed distances are defined in the *Mineral Resources Act 1989*.

Question 5.1

Indicate whether the mining lease is over land that is a reserve as defined in the Schedule - Dictionary of the *Mineral Resources Act 1989*.

Question 5.2

If you are unable to obtain the written views of the owner of the reserve despite efforts to do so, the Land Court of Queensland has the power to make a recommendation to the Minister as to whether the Governor in Council should consent to the grant of the mining lease over the surface of the reserve subject of certain conditions.

Question 5.3

Specify what attempts have been made to obtain consent.

4. RESTRICTED LAND

Are there any permanent buildings or relevant features within the boundaries of the land applied for or within the prescribed distances laterally of the boundaries?

4.1 YES (go to Q 4.2) NO (go to Q 5.1)

What are those permanent buildings or relevant fixtures?

4.2 A dam

Do you have the written consent of the owner(s) of the land containing those permanent buildings or relevant fixtures to the land being applied for in the mining lease?

4.3 YES (attach copy) NO (see below)

Please note: Consent must be lodged with the Mining Registrar prior to close of objections.

5. RESERVE LAND

Is the application over land the surface of a reserve?

5.1 YES (go to Q 5.2) NO (go to Q 6.1)

Do you have written consent of the owner(s) of the reserve?

5.2 YES (go to Q 6.1) NO (go to Q 5.3)

If yes – please attach a copy of consent.

If NO, what action has been taken to obtain such written consent?

5.3

Please note: Consent must be lodged with the Mining Registrar prior to close of objections.

6. BACKGROUND LAND TENURE DETAILS

Describe the land parcels that are the subject of the application for mining lease:

Lot Number 6.1 4 Plan Number 6.2 CNS382

Land Tenure Type 6.3 Freehold

Current Usage 6.4 Cattle grazing and coal mining

GUIDE FOR APPLICANTS

Question 6

Please provide a description of all parcels of land the whole or part of which are covered by your application. It is necessary to provide the landowner's name and address for each parcel of land. You can obtain this information from the Department of the Environment and Resource Management Service Centre.

You are also required to provide details of which parcels of land are within the boundaries of the surface area and access being applied for.

Refer to Schedule - Dictionary in the *Mineral Resources Act 1989* for the definition of an 'owner'

If insufficient space please attach list.

Questions 6.1 & 6.2

Specify the Lot Number and Registered Plan Number of land over which the lease is required.

Question 6.3

Insert land tenure type, e.g. Freehold, special lease, pastoral holding etc.

Question 6.4

What is the land currently used for?

Questions 6.5 & 6.6

Enter the Name and Address of the owner of the land.

Owner's Name	6.5	QCT Mining Pty Ltd, QCT Investment Pty Ltd, Mitsubishi Development Pty Ltd, BHP Queensland Coal Investments Pty Ltd, BHP Coal Pty Ltd
--------------	-----	---

Owner's Address	6.6	C/- Tenement Officer GPO Box 1389 Brisbane Qld 4001
-----------------	-----	---

Lot Number	6.1		Plan Number	6.2	
------------	-----	--	-------------	-----	--

Land Tenure Type	6.3	
------------------	-----	--

Current Usage	6.4	
---------------	-----	--

Owner's Name	6.5	
--------------	-----	--

Owner's Address	6.6

Owner's Address	6.6	
-----------------	-----	--

Released by DNRM under the RTI Act 2009

GUIDE FOR APPLICANTS

Question 7.1

If the applicant is not the owner of the land over which the surface of the application is made, then compensation must be entered into prior to grant either by written agreement or determined by the Land Court of Queensland of Queensland. Access land is also subject to the compensation requirements of the Act.

Any compensation agreement must be signed by all parties, stamped by the Office of State Revenue and filed with the Mining Registrar.

Question 7.2

Compensation is not required if the background land tenure is "Unallocated State Land" or is owned by the applicant. If the applicant is the owner, proof of ownership is required to be lodged with the application.

Question 8.1

Fully describe the reference/start point of the land so that it can be accurately located. Either by a survey mark or other fixed and well defined point. Preferably a GPS point.

GPS Points must be in latitude and longitude on GDA94 Datum or MGA94 (Easting, Northing, Zone)

Question 8.2

Indicate which corner the datum post is located, e.g. NW corner.

Question 8.3

Enter description of the reference start point. In describing the reference point, all bearings are to be magnetic. If there is insufficient space, please attach a list.

Question 8.4

Enter the compass bearing taken along the centreline of the reference/start point.

Question 8.5

Enter the distance, in metres, from the reference/start point on the compass bearing.

Question 8.6

The posts used to mark out the mining lease must have the applicant's initials along with the date of marking out. Indicate the initials and date marked on each post (Refer to section 241 of the Mineral Resources Act 1989).

Lot Number	6.1	1	Plan Number	6.2	SP190747
Land Tenure Type	6.3	Freehold			
Current Usage	6.4	Coal Mining			
Owner's Name	6.5	Marubeni Coal Pty Ltd, Coranar (Australia) Pty Ltd, Jellinbah Group Pty Ltd, CHR Vermont Pty Ltd			
Owner's Address	6.6	C/- Jellinbah Group, L7 12 Creek St Brisbane QLD			

Lot Number	6.1		Plan Number	6.2	
Land Tenure Type	6.3				
Current Usage	6.4				
Owner's Name	6.5				
Owner's Address	6.6				

7. COMPENSATION AGREEMENT DETAILS

Is a compensation agreement required?

7.1	<input checked="" type="checkbox"/> YES (go to Q 8.1)	<input type="checkbox"/> NO (go to Q 7.2)
-----	---	---

Why is a compensation agreement not required?

7.2	
-----	--

8. LOCATION DESCRIPTION

Describe the location of the Reference/Start Point of the land applied for.

8.1	Refer to Attachment A
-----	-----------------------

In which corner of the lease is the Datum Post located?

8.2	Refer to Attachment A
-----	-----------------------

Describe the connection from the Reference/Start Point to the Datum Post:

Commencing from the reference start point:

8.3	
-----	--

at a bearing of	8.4		for a distance of	8.5		metres,
at a bearing of	8.4		for a distance of	8.5		metres,
at a bearing of	8.4		for a distance of	8.5		metres,
at a bearing of	8.4		for a distance of	8.5		metres,
at a bearing of	8.4		for a distance of	8.5		metres,
at a bearing of	8.4		for a distance of	8.5		metres,
at a bearing of	8.4		for a distance of	8.5		metres,

to the Datum Post.

What are the markings on all the posts? (Initials and surname of one applicant or company initials and Date)

8.6	BBC 13-8-2012
-----	---------------

9. EXTERNAL BOUNDARY DESCRIPTION

Describe the external boundaries of the land applied for in this application.

Commencing from the datum post:

at a bearing of	9.1	See Attached	for a distance of	9.2		m,
to	9.3					thence
at a bearing of	9.1		for a distance of	9.2		m,
to	9.3					thence
at a bearing of	9.1		for a distance of	9.2		m,
to	9.3					thence
at a bearing of	9.1		for a distance of	9.2		m,
to	9.3					thence
at a bearing of	9.1		for a distance of	9.2		m,
to	9.3					thence
at a bearing of	9.1		for a distance of	9.2		m,
to	9.3					thence
at a bearing of	9.1	File A	for a distance of	9.2		m,

GUIDE FOR APPLICANTS

Question 9

You must describe the boundaries of the mining lease by accurately measured distances and compass bearings. All bearings are to be magnetic and clockwise and the description should indicate any abutments, for example, a bearing of 90° 00' for a distance of 100 metres to and abutting the western boundary of ML 70045.

You must also include a sketch map, or other graphic representation acceptable to the Mining Registrar setting out the boundaries of the land being applied for and the land required as access. This map should also show any mining claims, mineral development licences, or mining leases (or applications for the grant of one of these) within the boundaries of the land being applied for

Question 9.1

Enter the compass bearing taken.

Question 9.2

Enter the distance, in metres, to the next post.

Question 9.3

Enter description, e.g. North West Corner... etc.

Questions 10.1 & 10.2

If there is existing mining tenure (or prior application for grant of mining tenure) wholly within this application, or if there is an area that you do not wish your application to cover you are required to complete Question 11.2.

back to the point of commencement.

10. INTERNAL BOUNDARY CONNECTION AND DESCRIPTION

Is there an existing mining tenure (or prior application for grant of a mining tenure) wholly within this application?

10.1	<input type="checkbox"/>	YES (go to Q 10.2)	<input checked="" type="checkbox"/>	NO (go to Q 11)
------	--------------------------	--------------------	-------------------------------------	-----------------

Provide the tenure details of existing mining tenure:

10.2	Tick	Number(s)	Expiry Date(s)
Mining Claim	<input type="checkbox"/>		/ /
Mining Lease	<input type="checkbox"/>		/ /
Mineral Development Licence(s)	Mineral <input type="checkbox"/>		/ /
	Coal <input type="checkbox"/>		

Describe the connection from the Commencement Point of this application to the Datum Post/commencement point of the interior tenure.

From the Commencement Point **10.3** of this application

at a bearing of **10.4** for a distance of **10.5** m,

to **10.6** thence

at a bearing of **10.4** for a distance of **10.5** m,

to **10.6** thence

at a bearing of **10.4** for a distance of **10.5** m,

to **10.6** thence

at a bearing of **10.4** for a distance of **10.5** m,

to the Datum Post/Commencement Point of the interior tenure.

Describe the external boundaries of the interior tenure referred to above.

From the Datum Post / Commencement Point in the

10.7 corner of the interior tenure

at a bearing of **10.8** for a distance of **10.9** m,

to **10.10** thence

at a bearing of **10.8** for a distance of **10.9** m,

to **10.10** thence

at a bearing of **10.8** for a distance of **10.9** m,

to **10.10** thence

at a bearing of **10.8** for a distance of **10.9** m,

back to the Datum Post/Commencement Point of the interior tenure.

GUIDE FOR APPLICANTS

Questions 10.3 to 10.6

If there is a mining claim, mineral development licence or mining lease or an application for one of these tenements already within the area you are applying for, then the datum post or commencement post of the mining claim, mineral development licence or mining lease (or applications) must be related to the commencement point of your mining lease application by accurately measured distances and compass bearings.

The Mining Registrar may accept alternative methods instead of measured distances and bearings where these are more accurate.

All bearings are to be magnetic and description should indicate any abutments. For example, "at a bearing of 90° 00' for a distance of 100 metres to the...".

Please attach a separate list if insufficient space

Question 10.7 to 10.10

All bearings are to be magnetic and clockwise and the description should indicate any abutments, for example, "at a bearing of 90° 00' for a distance of 100 metres to the western boundary of ML 70045".

Please attach separate list if insufficient space.

Questions 11.1 to 11.3

Indicate if surface area is required, if so, state reasons why surface area is required and whether surface area is applied for over whole or part of the mining lease.

11. SURFACE AREA CONNECTION AND DESCRIPTION

11.1	<input checked="" type="checkbox"/> Whole (go to Q 11.2)	<input type="checkbox"/> Part (go to Q 11.2)	<input type="checkbox"/> Nil (go to Q 11.2)
------	--	--	---

Why is surface area required?

11.2	Access to all parts of the mining lease is required in order to construct and operate the infrastructure which will service the mine on the contiguous mining lease. Infrastructure will include co-disposal of waste coal materials, accommodation and stockpiles of overburden and topsoil.
------	---

Whole (go to Q 12) Part (go to Q 11.3)

11.3	If part - what area is required?	ha	(go to Q 11.4)
------	----------------------------------	----	----------------

Released by DNRM under the RTI Act 2009

GUIDE FOR APPLICANTS

Questions 11.4 to 11.7

All bearings are to be magnetic.

Please attach separate list if insufficient space.

Question 11.8 to 11.11

It is not necessary to mark out the boundary of the surface area if part only of the surface is going to be included in your application. However, the boundary of the surface area must be described by measuring the distance on the ground and by taking compass bearings. The description must be related to a boundary post by accurately measured distances and compass bearings.

All bearings are to be magnetic and distances are to be in metres.

Please attach a separate list if insufficient space.

Question 11.12

If no surface area is required to gain access to the area applied for in this application, provide details of your adjoining mining lease(s) that will enable you to gain access to the proposed area.

Describe the connection from a Datum Post of this application to the initial corner of the surface area.

Commencing from the Datum Post located at

11.4

GUIDE FOR APPLICANTS

Question 12.1

If you answered YES, complete Question 12.2.

If you answered NO, go to Question 12.3.

Question 12.2

Upon answering Question 12.2, go to Question 13.

Question 12.3

Insert the width of the access required in metres.

Question 12.4

Insert the description of the start point, e.g. At a point on the Mt Mulligan Road 2.15km NE of the Sandy Creek crossing at co-ordinates.....

Question 12.5

Insert the description of the end point, e.g. The Southern boundary of the mining lease.

Question 12.6

Enter the compass bearings taken along the centreline of the access.

Question 12.7

Enter the distance, in metres, of the access route on the compass bearing.

12. ACCESS LAND DETAILS

Is access to this mining lease via a dedicated road that is within or abutting the mining lease area?

12.1	<input type="checkbox"/>	YES (go to Q 12.2)	<input checked="" type="checkbox"/>	NO (go to Q 12.3)
------	--------------------------	--------------------	-------------------------------------	-------------------

What is the description of the dedicated road to be used for access?

12.2

12.6		for a distance of	12.7	m,	to the end point.

GUIDE FOR APPLICANTS

Question 13

Compliance with the native title provisions of the *Commonwealth Native Title Act 1993* is not necessary on land where native title is taken to have been extinguished (i.e. 'exclusive' land tenures).

However, if you wish to include in your application land that may be subject to native title (i.e. 'non-exclusive' land tenures), you must comply with the relevant native title procedure irrespective as to whether or not a native title claim has been lodged over the area.

Question 14

Applications over land located within the Trigger Map area for Strategic Cropping Land require compliance with the provisions of the *Strategic Cropping Land Act 2011*. More information can be obtained from the website www.derm.qld.gov.au

Question 15.1

Enter the name of place where the application was signed, the day of the month, the month and the year when the form is signed.

Question 15.2

Insert full name of the applicant(s).

Question 15.3

Signature of applicant(s).

Question 15.4

Insert full name of Witness.

Question 15.5

Signature of Witness.

Execution of Documents by Agent

If an agent or the holder of a power of attorney is signing a document, required to be lodged by an Act, on behalf of another, the agent or holder of the power of attorney must produce current, written evidence of their authority to act at the time of lodgement.

All of the holders of the tenure MUST execute the appointment of agent or the power of attorney for the appointment or power of attorney to be effective. A company signing an appointment of agent or power of attorney must do so in accordance with the corporation law and/or the articles of association of the company.

13. NATIVE TITLE

Do you believe that the application area (including any access land) is over land tenures that may be subject to Native Title?

13.1	<input type="checkbox"/> YES (go to Q 13.2)	<input checked="" type="checkbox"/> NO (go to Q 14)
------	---	---

If the land applied for is over land tenures where native title may still exist, is the land applied for subject to an Indigenous Land Use Agreement (ILUA)?

13.2	<input type="checkbox"/> YES	<input type="checkbox"/> NO
------	------------------------------	-----------------------------

14. STRATEGIC CROPPING LAND

Is the application area over land designated as potential or decided Strategic Cropping Land (SCL)?

<input checked="" type="checkbox"/> YES	<input type="checkbox"/> NO
---	-----------------------------

15. SIGNATURES

GUIDE FOR APPLICANTS

Question 16.1

Tick the appropriate boxes to indicate compliance.

Question 16.2

Tick the appropriate boxes to indicate compliance.

An annual fee must accompany new applications for Level 1 or Level 2 mining projects.

Refer to the DERM's Website www.derm.qld.gov.au for prescribed/annual fee amounts and appropriate application forms.

Question 16.3

If the application is for the purpose of mining for coal or oil shale or a specific purpose (coal or oil shale), you must ensure the additional accompaniments are lodged with the application.

You must determine whether any part of the application area of your Mining Lease is within the tenure area of a pre-existing petroleum lease or authority to prospect.

Refer to section 7AA of the *Mineral Resources Act 1989*. If so, separate applications may need to be lodged.

Mining lease (coal) means a mining lease for coal, whether or not the lease specifies any other mineral to be mined, and whether or not the lease is for any additional purpose.

Mining lease (oil shale) means a mining lease for oil shale, whether or not the lease specifies any other mineral to be mined, and whether or not the lease is for any additional purpose.

Specific purpose mining lease (coal or oil shale) means a mining lease, other than a mining lease (coal or oil shale), granted under section 234(1)(b), if the purposes for which it is granted include a purpose that is associated with, arises from or promotes the activity of coal or oil shale mining.

Specific purpose mining lease (oil shale) means a mining lease, other than a mining lease (oil shale), granted under section 234(1)(b), if the purposes for which it is granted include a purpose that is associated with, arises from or promotes the activity of oil shale mining.

Departmental Guidelines for initial and later development plans are available at www.mines.industry.qld.gov.au.

16. ACCOMPANIMENTS

16.1 The following must accompany this form:

	Tick
<ul style="list-style-type: none"> • A statement: <ul style="list-style-type: none"> ○ Outlining the mining program proposed, outlining its method of operation, and providing an indication of when operations are expected to start; or ○ If a mining program is not proposed, outline the use proposed for the land and provide an indication of when the proposed use is to start; and <p><i>(Note: The above information is not required if, under part 7AA, if your application includes a proposed development plan that complies with the initial development plan requirements)</i></p> <ul style="list-style-type: none"> ○ Of proposals for infrastructure requirements necessary to enable the mining program to proceed, or additional activities to be carried on to work out the infrastructure requirements; and ○ Specifying the estimated human, technical and financial resources proposed to be committed for the term of the lease. 	<input type="checkbox"/> or <input checked="" type="checkbox"/>
<ul style="list-style-type: none"> • A statement detailing the applicant's financial and technical resources however separate from the statements mentioned above. 	<input checked="" type="checkbox"/>
<ul style="list-style-type: none"> • Sketch map(s) or other graphic representation setting out: <ul style="list-style-type: none"> ○ the boundaries of the land the subject of this application; ○ proposed surface area; ○ location of datum post and start/reference point; ○ the proposed access; and ○ any Mining Claim, Mineral Development Licence or Mining Lease (or application for grant of same) wholly within the land sought. 	<input checked="" type="checkbox"/>
<ul style="list-style-type: none"> • Proof of identity of the Applicant(s) 	<input checked="" type="checkbox"/>
<ul style="list-style-type: none"> • The prescribed application fee 	<input checked="" type="checkbox"/>

16.2 Department of Environment and Resource Management requirements:

<ul style="list-style-type: none"> • A completed application form 	<input checked="" type="checkbox"/>
<ul style="list-style-type: none"> • The prescribed fee/s 	<input checked="" type="checkbox"/>

16.3 Coal or Oil Shale applications require the following additional accompaniments:

<ul style="list-style-type: none"> ▪ A proposed development plan which complies with the initial development plan requirements (sections 318DT and 318DV) and the requirements of either A, B, C or D below. 	<input checked="" type="checkbox"/>
<ul style="list-style-type: none"> ▪ Prescribed development plan fee 	<input checked="" type="checkbox"/>

GUIDE FOR APPLICANTS

Question 16.4

You must determine whether any part of the application area of your Mining Lease is within the tenure area of a pre-existing GHG tenure.

Refer to section 7AAC of the *Mineral Resources Act 1989*.

GHG Act means *Greenhouse Gas Storage Act 2009*.

GHG Tenure means a GHG exploration permit (also known as a GHG permit) or a GHG injection and storage lease (also known as a GHG lease)

<p>A. If the application is within an area of an authority to prospect for petroleum and is being made jointly with, or with the consent of the authority to prospect holder, the following must be lodged:</p> <ul style="list-style-type: none"> o A Coal Seam Gas (CSG) Statement; o Other information that addresses the CSG assessment criteria; and o Written consent (if applicable) or 	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<p>B.
