RE: Quote Number MMS -- 02 - 072013

Supply & Fabricate 63mm Ø blue stripe PN8 water line.

Dear Mark,

With regards to the request for Moultrie Mining Services to assist in the supply & fabrication of a 63mm Ø PE100 PN8 water line, it is our pleasure to provide the following quote:

\$35,000.00 excluding GST

(Thirty Five Thousand Dollars. excluding GST)

**Scope of Works:**

To complete required inductions for Penrose property, supply vehicles & equipment to Penrose property, Supply qualified personnel to complete project in a professional and timely manner, Supply 1200 metres of PE100; PN8 63mm Ø blue stripe pipe, transport pipe from local access delivery point to weed controlled work area at Penrose (EPC890) 5km approximately, de-coil 63mm pipe, place along pipeline route, ascertain location of "Y" intersection point, disconnection of "Y" intersection point, drainage of residual water from pipe line into 1000ltr container, electro fusion weld lengths together to complete connections from "Y" intersection to water tank as per diagram, repair "Y" section disconnection point, tie into main 63mm line and install 63mm equal tee for secondary line tie in at tank position.

Controlled trenching as per landowners grazing plan for 1200 metres approximately, placement of pipe, leak testing, backfill and compaction of trenching.

Supply accommodation and meals (comets rest)

Clean and tidy work area from PE pipe welding activities.

All vehicles & plant equipment will be weed controlled certified prior to landowner's inspection at Penrose Farm property of Penrose Rd.

**Material Supply:**

- 12 x 63mm Ø PE100, PN8 blue stripe coils
- 12 x 63mm Ø PE100, PN10 EF couplings
- 1 x 63mm Ø PE100, PN10 EF Equal tee
- Isopropynol wipes

**Exclusions to Quote:**

- Excavation permits if required
- Isolation permits if required
- Water for leak testing
- Hard rock ground conditions has not been allowed for
- Removal of water from storage tanks
- Work stoppages due to cattle interaction
- Access due to wet weather or grazing requirements

Should our quotation for this work be successful, we would be able to commence work upon the receipt of a Purchase Order and landowner's authorisation. lead time on materials is 5 to 10 working days.

We look forward to the opportunity of working with you on this project and thank you for the opportunity of providing a quote on this occasion.

Yours Sincerely

RTI DL RELEASE - DNRM

RE: Quote Number MMS -- 03 - 072013

Rehabilitate area of ground damaged by vehicle interaction -- wheel ruts.

Dear Mark,

With regards to the request for Moultrie Mining Services to assist in the repair of disturbed ground due to vehicle interaction -- wheel ruts, it is our pleasure to provide the following quote:

**\$5,000.00 excluding GST**

**(Five Thousand Dollars. excluding GST)**

**Scope of Works:**

To remove vehicle wheel ruts at Penrose property with use of backhoe & manual equipment.

Loosen centre section with backhoe 4 in 1 bucket to depth of approximately 100mm, soften edges of wheel ruts -- manual labour required, shovels & picks, to ensure minimal disturbance to surrounding area, level disturbed soil and fauna materials to provide a natural even look in adjacent surroundings.

Spread client requested seed (savoy mix) to disturbed areas, compact ground to required compaction to reduce erosion due to inclement wet weather.

Lightly water to encourage seed germination.

Supply accommodation and meals (comets rest)

All vehicles & plant equipment will be weed controlled certified prior to landowner's inspection at Penrose Farm property of Penrose Rd.

**Exclusions to Quote:**

- Water for leak seed germination
- Work stoppages due to cattle interaction
- Access due to wet weather or grazing requirements

Should our quotation for this work be successful, we would be able to commence work upon the receipt of a Purchase Order and landowner's authorisation.

We look forward to the opportunity of working with you on this project and thank you for the opportunity of providing a quote on this occasion.

Yours Sincerely
