Dear Sir/Madam

**Application For Water Allocation Dealing Certificate: Reference 181635  
Application 96984**

Attached is an information notice, which is advice of the decision and the reasons for the decision for the abovementioned application and a Water Allocation Dealing Certificate granted with conditions in accordance with the provisions of the *Water Act 2000*.

To complete this transaction, this certificate must be lodged with the Queensland Resource Registrar by the expiry date on the dealing certificate, accompanied by a completed general request form (form 14) and the appropriate fees (presently \$105.60 lodging fee, and a further \$45.60 for each new title created. Where subdivision is into ten lots, ten new titles are created).

The subdivision of this water allocation has effect on the day the registrar record the change.

If you have any questions please call (07) 4131 5888.

Yours sincerely,

49-Sch4 - Signature

## Information Notice

### **Application For Subdivision of a Water Allocation Application 96984 Water Allocation Dealing Certificate 181635**

This information notice is given in accordance with section 128A (5) of the *Water Act 2000* ("the Act") in respect of the decision on the above application.

#### **Background Matters**

P L and G A Stallan made an application on the 1 March 2005 to subdivide water allocation Lot 1508/AP6975 ("the Original Water Allocation") into 10 parts ("the Application").

The Original Water Allocation has a nominal volume of 28 ML. The Application proposed that the 10 parts have the following nominal volumes:

Part	Volume
A	2
B	2
C	10
D	2
E	2
F	2
G	2
H	2
I	2
J	2

#### **Decision**

I am an officer of the Department of Natural Resources, Mines and Energy delegated to exercise the power of the chief executive under section 128A of the Act.

I have decided under section 128A of the Act to approve the Application.

Evidence Or Other Material On Which Findings Of Fact Were Made  
The Application.

The prescribed fee of \$81.80.

An Internal Historical Water Allocation Search of the water allocations register in respect of the Original Water Allocation.

The Burnett Basin Resource Operations Plan 2003 ("the Plan").

The Act and the *Natural Resources and, Mines Legislation Amending Regulation (No1) 2004*.

### **Findings On Material Questions Of Fact**

The Application is properly made.

The applicant is the registered holder of the Original Water Allocation.

The subdivision of the Original Water Allocation is consistent with the Plan.

The total nominal volume of the subdivided parts of the Original Water Allocation equals the nominal volume of the Original Water Allocation. Therefore the subdivision does not result in an increase in the entitlement under the Original Water Allocation.

### **Reasons For The Decision**

The Application can be approved because the subdivision of the Original Water Allocation does not increase the entitlement under the Original Water Allocation and is consistent with the Plan.

### **Appeal Against Decision**

If you are dissatisfied with the decision, you may appeal against the decision. Enclosed are extracts from the *Water Act 2000* which detail rights to apply for internal review of the decision and appeal rights in relation to a review decision.

### Evidence Or Other Material On Which Findings Of Fact Were Made

The amounts total 28ML, no additional water is being created, and this application can be dealt with under Section 128A of the Water Act 2000.

The application was made on the approved form and accompanied by the fee as prescribed in the *Natural Resources, Mines and Energy Legislation Amendment Regulation (No.1) 2004*.

### Findings On Material Questions Of Fact

This application is a properly made application.

The amounts of the proposed subdivisions equal 28 ML, which is equivalent to the existing allocation.

Section 4.1H of the Burnett Basin Resource Operations Plan allows for subdivision of Water Allocations.

### Reasons For The Decision

This application is a properly made application, does not increase the holders entitlement and the subdivision is consistent with the Burnett Basin Resource Operations Plan
