Subject: Notice of Entry for MDI 303 on Lot 4 on CNS382

Hi Tom,

I'm still working on the draft CCA for data access for the work planned in MDL 303. I hope to have this to you tomorrow.

However as requested please accept, for the purpose of notifying the Mining Registrar, this email as confirmation that the holders of Lot 4 on CNS382 accept the retrospectively issued Notice of Entry for the period 01/04/2012 to 31/08/2012 (NB. the notice issued stated 31/08/2013, but since consent was not requested for a longer period I have assumed it was simply a typo).

Thanks...H

Thanks for letting me know. Could you please arrange for an NOE to be completed and forwarded to us for record purposes? Upon receipt BMA will provide the appropriate authorisations.

Thanks

Sean,

Last week we lodged the ML Application over the western portion of MDL303 (for future infrastructure).

As per the previous entry notice (November 2011 to March 2012), the area had been surveyed earlier in the year. Last week we sent a Lake Vermont employee out to the MLA area to mark the posts and confirm the survey prior to lodgement. This was done outside of having a current entry notice with BMA.

In previous meetings we discussed the upcoming lodgement and activities for the area. On this basis, can I please request a short letter confirming that BMA was aware of the activities and that you have no objection to them?

I appreciate this is not your area of the business, however I have sent this to you as that the previous discussions about these matters have been between us at meetings about the various matters currently on-foot between BMA and Lake Vermont. I am happy to take this up with your land team should you wish to pass it on.

Please feel free to give me a call should you wish to discuss.

Tom
