DNRM - RTI DL RELEASE

[Redacted text]

back. 25th

Next steps

- > Options -> Perm/temp & range of conditions
- > Pros/cons Risks (resource ^{comp} & Landholders & soil resource.)
- > recommendations. ^{was}
- > Tech review workshop -> EHP/water/DSDIP/Daff?
- > Brief. of options to EMG + Andrew Freeman.
- > ~~sub~~. REC

change layout, not increase in area - new app.

73(2) Irrelevant

* Lizzie Bradford RE Springsire 10 July 2013

Discussed/explained:

- temp / perm impacts (pre-development condition)
- assessment + decision process of protection dec.
avoid, minimise, temp/perm, mitigate
- mitigation status - set per ha rate in SCH regs.
managed by DAFF
- EC + perm impacts in protection areas.
- EC app process + public notification process.
- transitionals + protection conditions.

R

73(2) Irrelevant

30 July 2013.

* - Bandanna. Energy.

Lyndell Harrold

- 9 August 2013. → application to be lodge.
Hope to lodge.

49-Sch4 - Personal Information

→ asked for a ^{rough} timeframe for assessment.

→ said I couldn't give one without really seeing the application. ~~some's~~ depends on workloads + complexity and if we require further info.

→ some open cuts are "clear cut" and relatively straightforward, however this one will be complex + "new territory" around subsidence + temp/perm impact.

DNRM - RTI DL RELEASE

73(2) Irrelevant

73(2) Irrelevant

* Lyndell Manrahan
Bandanna.

49-Sch4 - Personal Information

→ check fee.

→

DNRM - RTI DL RELEASE

73(2) Irrelevant

* Bandanna Lodgement Meeting

9 Aug 2013

Pete Jones, Stuart Clarke, Wedeen Smith, Andrew McLaughlin
Errol Sandis. (teleconf)

- Kylie Dunlop EMP in Rocky.

- Presentation

→ finish EIS

- 15 day EMP approval.

- EA in lodged.

public notice ~~but~~ by November.

- Have proposed some addit

→ George has made comment on Draft Research Plan.

- Want us to be involved with BHP in Rehab process.

- DNRM to sign off on completion criteria

- Steven Rains.

- feedback on application / template.

R

- ~~is~~ land resource vs
1/ temp vs perm land use
misconception.

*

~~1/1~~

② Perspective stat.

③ predev condn is still meet
scs thresholds

① Definition in Act. + our
Application + interpretation

c) is returning to production, here
irrespective of impact.

→ then what applicants are pushing.

@ predevelop. land use. as opposed to ~~low~~ condition.

→ Haul road. + EC..

before + after. of land surface.

photos of subsidence.

→ est 60ha MIA impact area

7050ha subsided (pg 41 scs app)

6794ha scs

40 years

≈ 11 Mill +/per.

R

73(2) Irrelevant

Springsure, Ch. Meeting

Barbours 6/9/2013

road
15 - 25 ac total.

Certainty around ^{term of} ML \rightarrow 30 years. "likely hood of not"

pre dev
condition function + ~~site~~ capability

DNRM - RTI DL RELEASE

10am 11/9/13

Teleconference Springsuc Ck

Pete Jones, A Mc.

Meant to put in trigger map. will amend and.
will double check hectare figure.

- Protection decision conditions outline/guide ~~first~~ ~~first~~ future
development of methodology of "on the ground"
work.

73(2)Irrelevant

DNRM - RTI DL RELEASE

R

Subsidence. for Bandanna.

* Can we restrict "approval"

* Not controlled traffic.

→ run up + down slope ⇒ beam lines concentrate flow

⇒ intensity of rainfall.

⇒ not everyone on central highlands

Tim Neal?

* Not keen on going out of production prior to, during + after subsidence. ⇒ *

Mick Shaw. ⇒ just east of Kestrel - south of road subsidence

Paul. Murphy

- Committee not part of conditioning / approval

Conditions.

- Progressive rehab ⇒ milestones to be completed prior to continuing mining.

Herwood
~~Haywood~~
Brett someone OSDIP "can manager"

- Perception issues see decision
- Temp Vs Perm inter

→ what is there for view.

→ existing pres. but more detail

→ brief up options - CE decisions.
- socialised amongst

Waz → overview.
→

→ Discussion Mitigation Figure

→ Research. Comm. Acc.

→ yearly accounting - how

→ how conditions facilitate flexibility.

EIS assessment Report

Report. section 5 on.

→ by req.

option → require EMP subsid plans etc as
required by EIS assessment prior to SCE
decisions

App will send something to GIS. - amend maps.

Amended application 14/11/13.

Givens

- prescribed in act
- avoid + minimise. →
- mitigation value. in extent of impact.

minimise

threat ~~to~~ ~~soil~~ erosion soil.

Plans must be quantitative. in add methodol

Adaptive management.

list together for making with bandanna

Will they provide more info for SCC.

Questions → is remediation eg soil con works a "resource activity"

- start on brief.
 ← attachments - assessment report
 ← recommendations. - draft decision notice + conditions

- what is future of Soil Con Act.?

- catch up with EHP. RE plan requirements/overlap

- conditions to applicant for review.

- check with EHP draft EA.

- can condition to EC.

- time for briefs in the system.

73(2)Irrelevant

17/1

- Lizzie Bradford rang enquiring about status of PD
- D explained would be at commercial bridge shortly.
 - D hopefully decision by end of month
 - D Howl road would be a few weeks at least behind.
 - D if permanent could issue PD ~~by~~ but EA could not be until gain EC decision by minister.

R

73(2)Irrelevant

Formally Request under s 98. - made everyone else.

500
+
100

- 3) Location - \rightarrow (Denlo) \rightarrow ~~area~~
- Extent - total # of ha
- minimised impact - plan to satisfaction to chief executor
- \rightarrow materials stay on ML 70486
 - \rightarrow materials balance - need out + back in up.
 - \rightarrow rehab plan \rightarrow + amendments to sump.
 - \rightarrow disturbed area footprint \rightarrow SSSP.
 - \rightarrow monitoring plan.

Existing condition + area Non-SCL.

can't accept their proposed condition - X

is quarry in EIS??

check with Tenille RE Quarry.

Area A. \rightarrow balance of cropping area. 7064

Gino - dissolve narrow bit of area C into A

- Note point of Quarry.
- Take off Draft.

consider.

EA notification process. \rightarrow Notify ML + Draft EM plan.
Submissions + objections periods.

\rightarrow EA. 5

Quarry in

73(2) Irrelevant

Jason

- normal query wouldn't be accepted.
- still not ideal not sure of resource location/quality/need.
- as opposed to cost resources + need for infrastructure.
- language of request.
- not authorized on sc until CE satisfied
- ~~as~~ of above.
-

R

73(2) Irrelevant

Springsure CK catch-up (01/11/13)

Warwick, Jamie,
Darrin, Errol.

Regional Plan leg. will be in before MLs issue (early 14?)

RP leg. will catch any project at any time.

SCL decision needs to be well considered.

dev. up temp and perm options will DAFF, DSDIP as was proposed.

DP or min to talk to Bandanna.

Bill to Parl. prior Christmas, Committee Jan/Feb, March commence?

DNRM - RTI DL RELEASE

Springsure CK discussion (28/10/13)

Warwick Squire	McDonald
Beinepette	Freeman

- DP, Min - Bandanna need to be clear of pathway forward.
- Talk to DP about his view. Step him through process and options.
- Complete ~~start~~ clarity on DP - Min options and processes.
- Briefing by Thursday 31 Oct.
 - Flow chart approach.

49-Sch4 - Personal Information

Springsure CK meeting (09/12/13)

Stuart Clark (Band)
Lloyd Taylor
Warwick Squire
me

Band - Keen to get SCL Protection Decision as difficult to do EA public advert without it.

Band - Hall road to be considered under new RPI Act. May withdraw Prot. Decision app. for haul road to make it easier. Except. Circum not politically palatable. Warwick → NRM happy to discuss EC option to avoid public road issues.

Band - differing views on subsidence → perm or temp. Carrying capacity the same and land use.

Band - Keen to implement subsidence mitigation program that will work 95% of time, then use adaptive management. (to be captured in Sub. Manag. Plan)

Band - No benefit in delaying perm. impact decision. End game is co-existence. ~~Want~~ Want SCL Prot. Dec. prior to going out with EA.

- Review mentioned

* - Engage with Bandanna on Protection Decision.

Band - Want EA out after Christmas to the public.

- DE is the decision maker.

- Lloyd committed to NRM engaging with Bandanna as part of Prot. Dec.
